PROSPERITY OF TONOPAH.

EVERY indication portends another year of unexampled prosperity for Tonopuh. The signs cannot be misunderstood. On every side there is the testimony of wonderful development of underground wealth, and while other cities and towns on the coast and ribs braised, \$45, temporary disreport a congestion of labor and shortage of employment, there is ability. no fault to be found with industrial conditions in the local field. Peter Murdick, Tonopan, fingers of The holiday trade is an infallible index to the amount of money right hand bruised, \$18, temporary available for general circulation. When stringency prevails holiday goods are not bought, or purchases are confined to the necessaries injured head and back, \$60 on acof life. Tonopah merchants state they never enjoyed such a trade count, as they experienced during the last ten days. One business house affirms that its business was 300 per cent ahead of last year, and the lowest verified report gives an increase of 50 per cent. Setting these figures aside for the moment, the reader is invited to look and ankle, \$34. compare the figures of two postoffices, situated in places widely separated and surrounded with different environment from that of hattan), leg amputated, \$56. a mining camp. Reno is one of these. The postmaster of that town exults over the sale of \$400 in stamps used for parcels post business two days before Christmas. This was a record for that office. On the same day Tonopah reported stamp sales aggregating \$280, the bulk of which went out on holiday packages. Tonopah has a population of 6000 and Reno a population of 12,000. This is at the ratio of three and one-third cents for every man, woman and child in the commercial metropolis of Nevada, while the ratio for Tonopah is four and two-third cents per capita. Salt Lake City boasts of a population of 100,000 and the heaviest day's sales was \$4169.18, or with small rock, \$60 on account. at the rate of four and one-sixteenth cents per capita. This is doing exceedingly well under the circumstances, as the figures do not reflect the actual extent of the business, owing to the fact that cities always have a larger number of families and, therefore, the volume porary total disability. of postoffice business at the holiday season is much greater. Nevertheless. Tonopah more than holds its own in the list, and it is safe to say that the value of the individual presents was larger than those from outside points.

Reviewing local conditions, such an authority as H. C. Brougher. president of the Tonopah Banking Corporation, said last night that the camp never was in better financial shape, and he predicted as great an increase in 1914 as the increase of 1913 over 1912. Every one who has read the annual review of the Bonanza knows what this means. It implies an impetus to business that will add 25 per cent to the population of Tonopah, a better real estate market and the construction of more buildings than during the preceding twelve months. Homes must be provided for the new arrivals and these homes must be built. The period of bringing houses from other camps has passed, and whatever is done must be in the way of new construction. The same authority forecasts the appearance of a couple of new dividend payers during 1914, when the development work of 1913 will begin to show on the returns from shipments. glance at the delinquent tax list printed today in the Bonanza will disclose the important fact that the delinquency in Tonopah proper is far less than any preceding year. This proves beyond peradventure that the people of Tonopah have the money to meet their obligations and appreciate the value of their holdings to an extent that leads them to protect their investments.

The signing of the currency bill has removed all uncertainty from investment operations, and by degrees the field of speculation will widen and there will be an activity in stocks that will draw more attention to the legitimate offerings of Tonopah mines.

It's an ill wind that blows nobady good. The Mormons who had taken up lands in Chihuahua are now turning their eyes to the opportunities in states under the old flag. Nevada is not going to be overlooked, as a number of colonizing companies in the northern counties are identified with the Church of Latter Day Saints.

Three candidates are sitting up nights in Goldfield waiting for the lightning to appear from a winter's sky in the shape of a demoeratic postmastership.

Pioche has at last come into its own, and from now on the old camp will figure more complenously in the bullion returns. The resumption of service on the Pioche Pacific removes the last obstacle to the prompt movement of shipments.
